

Tate Wall-mount Fireplace

The simple black frame of the Tate wall-mount fireplace leaves the revolutionary Opti-myst flame technology to shine and enchant its audience. The contemporary rock bed can be set to create a meandering flame. The flame can be viewed with or without heat.

Revolutionary ultrasonic technology is used to create the flame and smoke effect of the Dimplex Opti-myst. As the mist rises up through the rocks, the light reflects against the water molecules creating a convincing illusion of flames and smoke. The result is an appearance so authentic it will be mistaken for a true wood-burning fire.

120 Volts / 1,400 Watts / 4,777 BTU
